## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Won Tae C. Kim on October 22, 2004.

The application has been amended as follows:

Delete claims 18, 33, 51, and 66.

### ***Allowable Subject Matter***

2. Claims 1-17, 19-32, 34-50, and 52-66 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the allowability recites at least in part: A cover for use in a disk drive, a head stack assembly (HSA) including an actuator assembly pivotally coupled to the base of the disk drive to support at least one head for writing and reading data to and from the at least one disk, the cover for mounting to the base, the cover comprising: a first cover portion having an external side and an internal side; and a second cover portion having

Art Unit: 2835

an external side and an internal side disposed within the first cover portion, the second cover portion being recessed relative to the first cover portion, the recessed second cover portion being located approximately adjacent to the at least one disk and being substantially coextensive with the at least one disk, the internal side of the recessed second cover portion facing the at least one disk and being closer to the at least one disk than the internal side of the first cover portion or that wherein the external side of the first cover portion includes a plurality of channels having at most the same depth as the recessed second cover portion, each channel extending from a side of the cover to the recessed second cover portion, each channel further being disposed within a respective complementary channel-accommodating slot formed within a respective sidewall of the base, respectively, wherein at least one of the channels extends from a different side of the cover than one of the other channels to create at least two different channels, such that the second recessed cover portion is in air-flow communication with air flowing about the cover from at least two different sides of the cover through the at least two different channels to aid in heat dissipation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2835

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung v Duong whose telephone number is (571) 272-2041. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn D. Feild can be reached on (571) 272-2092. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 308 0956.
